**SPECTRUM VOICE® RESIDENTIAL SERVICES PRICE GUIDE**  
**(EFFECTIVE: NOVEMBER 15, 2016)**

**Basic Service:** Basic service provides real-time, two-way voice communications service permitting users to receive calls that originate on the public switched telephone network and terminate calls on the public switched telephone network. Basic service will be provided with Touchtone service, E911 emergency service<sup>1</sup>, one standard white page directory listing, access to; operator services<sup>2</sup>, directory assistance<sup>3</sup>, Subscriber and repair call services, line intercept service, Telephone Relay Service (TRS) (where available)<sup>4</sup>, interexchange carriers for long distance calling and unlimited local calling within the local service area<sup>5</sup>. Basic Service is included in the Company's long distance packages and provided previously as a standalone service in some states. A Line Access charge, a Federal Universal Service Fund charge, taxes and fees may be billed monthly to the Subscriber.

**Long Distance Service:** The terms set forth in this Price Guide, as well as those found in the Charter Spectrum Voice Residential Services Agreement, apply to extended long distance services furnished by the Company for non-local calls within the U.S. and to specific international locations as referenced within the packages described below. The Company provides such long distance services, including direct-dialed services, to Subscribers of the Company's local service. The Subscriber must choose the Company as their service provider for all long distance calls in order to subscribe to a packaged service. No substitutions on service packages are allowed. Rates (package or per minute) for long distance calls include only direct-dialed (1+) calls. Operator assisted (0+) calls are excluded from the stated package. The Company reserves the right to review usage of any long distance service (package or per minute services) and discontinue or block long distance services without further notice if Subscriber is utilizing the service for non-residential purposes or is exceeding acceptable usage. Calls are measured in duration increments of sixty (60) seconds. All calls which are a fraction of a measurement increment are rounded up to the next whole unit. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier. Service provides the Company's Subscribers with the ability to originate calls to all other stations on the public switched telephone network bearing any rate center office(s) designation outside the Subscriber's local calling area. See also <https://www.charter.com/browse/phone-service/phone>.

1 The Company will provide 911 location information for all lines on the same account and does not support multiple address locations.  
2 Provides Subscribers with assistance using operators or an automated interactive voice system. Please also see <http://www.charter.net/support/voice/placing-domestic-and-international-calls/>  
3 The Company will list its Subscribers' telephone numbers with directory assistance providers, except private telephone numbers. Please also see <http://www.charter.net/support/voice/spectrum-voice-phone-service/>  
4 Please see <http://www.charter.net/support/voice/spectrum-voice-phone-service/>  
5 Basic Service does not include optional toll free calling outside of the designated local calling area.

**Local Calling Plans:** Missouri Metropolitan Calling Area (MCA) Service (optional Plan with Basic Service): MCA service is a toll-free expanded calling plan provided to Missouri Subscribers with Basic Service. Several layered calling areas (tiers) are provided and Subscriber's rate is dependent upon Subscriber location. "Host or Non-Ported" Subscribers, those not transferring numbers from another Company, must have the MCA overlay subscription in addition to their basic service. The minimum service period is the same as for Basic Service and rates are billed one month in advance. Georgia and Tennessee County-Wide Calling: In addition to the local calling areas, toll free calling on a (1+) or (0+) basis is provided between all local service locations within the same county. On operator-assisted calls, appropriate local operator service charges will apply. Intra-county toll calls that terminate to a Local Exchange Company that is not participating in County-Wide Calling will be rated at appropriate toll charges.

**Voicemail:** Subscriber may listen and/or reply (via e-mail) to stored messages left from incoming callers. Subscriber may manage voicemail settings/features and receive call details, for example the caller's phone number, caller's name, date and time of each voicemail. Readable Voicemail converts voice messages to written word electronic mail messages at no additional cost to the Subscriber. As a result of system constraints, some messages may not be fully transcribed and will appear as incomplete. Transcription services are not error free and the accuracy of the transcription can be affected by a number of factors. Incomplete messages will be denoted in the body of the transcription or some other indication that your message has been truncated. In such situations, you may obtain the full message by listening to your voicemail message. Subscriber consents under all applicable laws and regulations to provide Voicemail Messages to Charter's vendor such that its vendor shall be authorized to process those voice files and use Voicemail Messages, portions thereof, and/or log files or other data associated therewith, to tune, enhance, and improve the Services, including but not limited to, improving speech recognition technologies. Also see <http://www.charter.net/support/voice/enhanced-voicemail-help/>.

<b>Mexico 500 Plan:</b> Prepaid plan to a Subscriber for 500 calling minutes to landline destinations in Mexico. Also see <a href="http://www.charter.net/support/voice/mexico-calling-plans/">http://www.charter.net/support/voice/mexico-calling-plans/</a>	\$ 25.00
<b>Unlimited Calling to Mexico Plan:</b> Unlimited Calling to Mexico plan offers Subscribers in California (select areas only) a no cost additional service to their current Unlimited Long Distance voice package. Subscribers must enroll in a triple play package (Voice, TV and Internet) having a Latino View TV package. The Unlimited Calling to Mexico package offers Subscribers unlimited landline and up to 250 cell phone minutes per month. Any usage above 250 minutes to Mexican cell phones is charged at a \$0.35 per minute rate. The Unlimited Calling to Mexico Plan is limited to single family residential use only, at usage levels consistent with typical residential usage. "Typical residential usage" refers to the calling patterns of at least 95% of our residential customers subscribing to the Plan. Usage of the Unlimited Calling to Mexico Plan is permitted only by Subscriber, Subscriber's immediate family and guests residing at Subscriber's residential premises (collectively, "Subscriber"). The Unlimited Calling to Mexico Plan is intended to be used for continuous live dialog between the Subscriber and a third party. As with all residential Voice Service rate plans, the Unlimited Calling to Mexico Plan may not be used for commercial purposes, including, but not limited to, telemarketing, call center services, medical transcription or facsimile or voice message broadcasting. The use of auto-dialers and predictive dialers, resale of Service and use of the Unlimited Calling to Mexico Plan (a) by or on behalf of persons other than Subscriber, (b) in connection with the operation of a business or enterprise, including a home-based business or a non-profit or governmental organization, or (c) without live dialog, including use as a monitor or intercom, are outside of the Plan and are prohibited. Charter monitors and evaluates residential customer usage for patterns that are inconsistent with single family residential usage. Excessive consistent usage, unusual call patterns, and lack of continuous dialog activity may be presumed indicative of use that is inconsistent with normal residential use of the Unlimited Calling to Mexico Plan. Other factors considered may include, but are not limited to, aggregate usage that significantly exceeds typical residential usage, the average duration of calls, large numbers of calls of short duration, the number of calls placed in a month and other abnormal calling patterns that Charter deems indicative of attempts to evade enforcement of the limitations on the Unlimited Calling to Mexico Plan. Charter reserves the right to review Subscriber's account and take action including, but not limited to, immediate suspension of Subscriber's Voice Service account if usage is beyond typical residential usage, otherwise prohibited by this AUP or adversely affects Charter's operations. If Charter determines that a Subscriber is engaging in abnormal or impermissible usage, Charter will use reasonable efforts to inform the Subscriber and may provide an opportunity to correct improper usage, or Charter may terminate Service or remove a Subscriber from the Unlimited Calling to Mexico Plan with or without notice. Charter may revise this Unlimited Calling to Mexico Plan AUP at any time by posting a revised policy at <a href="http://www.charter.com">www.charter.com</a> , under "Terms of Service/Policies" or by notifying Subscriber of the termination of such Plan.	No Additional Charge (unless above cell phone minute limit)
